Work Experience

April 2016 -| **Marie Prunault Architect**

RzHz, Rezé House, concept

Web design

Ribeye Chair

Free lance @ Mmek' experience

July - December 2015

Unformal robotics and prototyping try-outs

July 2011 - July 2015| **Designed by Erick van Egeraat.**

Landscape project Private residence Usovo (RU), 20.000 m², under construction.
Lead designer all phases, execution documentation.

Private residence Usovo (RU), GFA 8.000 m².

Preliminary design. Models and BIM wrapping.

Inceneration line, Roskilde (DK), Shell: 4.505 m² of aluminum panels, completed.

Project leader execution phase.

Tender phase graphic documents, design parametrisation, site supervision team.

Curriculum Vitae

08/01/16

Penthouse private client, Moscow (RU), GFA 3.400 m², under construction. Interior design and 3d models, spiral staircases.

Canopy for tender

Final design and model to production

July 2010 - July 2011| **UNStudio**

Architect

Toison d'Or, Bruxelles (BE), Mixed-use program retail and housing, building permit.: Design development and documentation production of 86 appartments for building permit application.

Post Rotterdam (NL)

3d study in detail, connection new building (vertical foyer) to existing monument.

IBG, Groningen (NL), DO

Design complementary architectonic features on tax office estate, including parking exits and guest house.

Fun Factory, parking on Gamma Locatie, Spijkenisse (NL)

Façades and volume study. Parking building, Entertainment program.

Acquisition sheets

Collect documentation for possible developments in Egypt and Belgium.

April 2009 - July 2010| **Designed by Erick**

van Egeraat.

Architect / 3d modeler / CAD coordinator.

Aquisitions and Competitions:

Graz medical campus (AT), GFA 70.000 m², Sberbank University (RU), GFA 20.000 m², United World College Maastricht (NL), Sberbank city (RU), 5.000.000 m².

Budapest city hall (HU), GFA 118.000 m², building permit.

Design landmark tower - overall 3d model.

Residential high-rise De Brugwater, Groningen (NL), GFA 17.000 m².

Floorplans, volumetric design, 3d models.

January 2004-February 2009| **(EEA) Erick Van Egeraat associated architects.**

Architect / 3d modeler / CAD coordinator.

Interior design De Brauw Blackstone Westbroek offices in Mahler 4, Amsterdam (NL), completion 2009.

Design and coordination with execution team for items with complex shapes (spiral staircases, auditorium draped skin, library wall solid surface, bar) (2007-2008).

Office tower Mahler 4, Amsterdam (NL), GFA 31.090 m², completion 2009.

Execution phase, conform geometry with façade detailing and structure, structural and shell model, façade system (2005).

Villa Ringvaartweg, Rotterdam (NL),

GFA 657 m², completion spring 2009.

Design roof and sun shading, complete 3d model for execution, furniture, staircase railing, interior walls, site supervision team (2006-2009).

Doorhandle "Erick" for Post en Eger, in production.

Design, prototypes (2007).

Lyon Confluence, le monolithe, mixed-use development (FR), GFA 6.870 m², under construction, completion summer 2010.

Competition team (2004), design development, coordination with execution architect in France (2008).

Main building and Auditorium University of Leipzig (DE), GFA 25.000 m², under construction.

Design development team (2006), model for 3d print (2007).

Metzo College, Doetinchem (NL), GFA 16.400 m², completed.

Execution phase team, overall 3d model, structural drawings control, staircase design and execution documents (2004-2005).

Chicago Hotel Rotterdam (NL), GFA 10.200 m².

Design development team (2008), interior distribution study, visualization.

Tatarstan National Library and National Bank Kazan (RU), GFA 85.707 m².

Curriculum Vitae

08/01/16
